Her entire life has been dedicated to alleviating the pain of the poor and those suffering physically and emotionally. Amma inspires, uplifts and transforms through her physical embrace, her spiritual wisdom and her humanitarian activities. Her boundless love and compassion cross all barriers of nationality, culture and religion. For her extraordinary contributions to world peace, Amma received the Gandhi King Award for Nonviolence in 2002. Her charitable projects, now known collectively worldwide as Embracing the World®, are reaching out to millions around the globe. Guided Walk

An opportunity to join Br. Shubamrita for a guided historic tour of Keston Common by the Chair of the Bromley Local History Society on Thursday 2 May 2019 at 2pm. Caesar's well is a natural spring that is the origin of the river Ravensbourne that runs as a culvert directly under the MA Centre UK and is considered to have special significance. The area was a major Roman villa and legend has it that the thirsty Roman soldiers were led to the spring by watching the activities of ravens. Charles Darwin completed much of his work on earthworms at Keston Common.
